EDUCATION

2009 - 2013

VINAYKA MISSION UNIVERSITY

- Electronics Telecommunication Engineer

SKILLS

- PHP
- CSS3
- HTML
- MySQL
- React JS
- Bootstrap
- Javascript
- CodeIgniter

LANGUAGES

- Tamil (Basics)
- Hindi (Fluent)
- English (Intermediate)

HOBBIES

- Music
- Gaming
- Swimming
- Cricket
- Travelling

PROFILE

Experienced PHP and React developer with expertise in JavaScript and React. Demonstrated success as a PHP developer at PayPines Financial Services, excelling in back-end development, third-party web service integration, and support for front-end developers. Collaborated closely with web designers and front-end developers at Innovovision Technology to ensure seamless user experiences, incorporating third-party APIs and maintaining optimized code. Also served as a software engineer at Fillip Technologies, specializing in PHP code writing, testing, and debugging for websites and web applications. Previous role as a telecommunications engineer at Adacell Technology Private Limited focused on microwave antennas for telecommunications. Additionally, gained valuable customer support experience at Cogent E Services, handling customer queries through various channels. Proficient in PHP, CSS3, HTML, React JS, MySQL, Bootstrap, JavaScript, and CodeIgniter.

WORK EXPERIENCE

SoftwareERP — Apr/2022 - Present

PHP Developer | React JS Developer

- Collaborated with cross-functional teams to develop seamless integration of APIs, improving data flow within applications.
- Designed REST calls using React to streamline user interface performance.
- Maintained high-level expertise in React state management strategies.

PayPines Financial Services — Aug/2021 - Feb/2022

PHP Developer

- Development back-end components, connect the application with the other (often third-party) web services, and support the front-end developers by integrating their work with the application.
- They are also often required to develop and integrate plugins for certain popular frameworks.
- Used excellent knowledge of web technologies including HTML, CSS, JavaScript and AJAX to complete tasks efficiently.
- Conducted thorough debugging of application systems, identifying and rectifying complex issues to optimise performance.

Innovovision Technology — Feb/2019 - Jul/2021

Software Developer

- Collaborating with web designers to ensure applications meet the desired requirements.
- They also work with front-end developers to ensure a seamless user experience and this includes ensuring testing and maintenance for optimised code.
- Integrating third-party APIs, content management systems, and e-commerce platforms and maintaining the code and enhancing it.
- Mentored junior developers, sharing expertise and best practices to support team development and knowledge growth.
- Provided weekly detailed project reports to keep manager informed on milestones and updates.
- Customised software applications to support unique business processes, delivering tailored solutions that drove operational efficiency.

Fillip Technologies   Feb/2018 - Jan/2019

Software Engineer

- Writing, testing, and debugging PHP code to create websites and web applications.
- This includes developing the layout and design of programs, applications, and websites.
- Participated in continuous learning initiatives to stay abreast of emerging technologies and methodologies in software engineering.
- Conducted rigorous testing and debugging of software systems, significantly reducing the incidence of critical bugs.
- Coordinated quality testing with assurance team and partnered on resolving defects.
- Engaged in client consultations to gather precise requirements, ensuring the delivery of customised software solutions.

Adacell Technology Private Limited   Apr/2017 - Jan/2018

Telecommunications Engineer

- Streamlined operational processes by automating routine telecommunications tasks, freeing up resources for strategic projects.
- Designed and implemented complex telecommunications networks, optimising performance and reliability for diverse clients.
- Aligned with project budgets to minimise costs and delays, meeting timely deadlines and quality standards.
- Installed and tested radio transmitters, receivers and transceivers for proper functioning.
- Delivered training sessions on RF engineering principles to junior staff, fostering a culture of continuous learning and development.
- Utilised advanced simulation software for predictive analysis of RF system performance, driving strategic improvements.

Cogent E Services   Jan/2017 - Apr/2017

Customer Support Associate

- The primary point of contact for customer questions, complaints, and assistance and respond to customers through various channels, such as phone, email, live chat, and social media
- Handled customer complaints calmly and professionally, providing positive solutions to uphold company reputation.
- Worked with energy and determination to maintain efficient customer service during peak business hours.
- Responded to live chat rooms to answer and resolve customer queries, elevating customer satisfaction with immediate support.
- Participated in weekly team meetings to discuss challenges and share best practices.
- Monitored email to promptly collect and respond to complaints.
